

5 Spring Trends to Renew Your Style

1. *Flash back* – taking our cue from the sixties legendary chic with snappy tailoring, high waists and pegged skirts.
2. *Beltway girls* – waists tied, wrapped, draped and slung; belts whisked on at every opportunity.
3. *Peek-a-boo* – Pop a long top under a short jacket! It's a matter of proportion that's edgy, sexy, altogether new.
4. *Twinkle-twinkle* – More shimmer and sheen than sparkle. Done in threads of silver and gold; glazed fabrics; subtle jacquards that catch the light.
5. *Fresh florals and Upbeat colors* – Flower girls rule and something floral is a must. Happy bright reds, yellows, blue and green hues abound. Get 'em while they're hot.
